Extraction of baking residuals with an IS-36 industrial vacuum cleaner

Cleaning of baking equipment with a stationary vacuum system

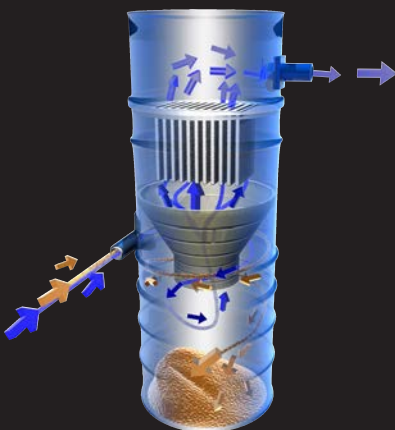

Portable vacuum unit IS-series

Possible effect of a dust explosion

Cleaning of production machinery. Vacuum extraction of flour and bread particles.

A highly efficient pocket filter and a cyclonic separator retain even the finest flour particles. Depending on your requirements, units with dust class M or H are available.

Delivery trucks are easily and hygienically cleaned after their return from the delivery tour.
